

Third meeting

attendance: 2/3

Topics discussed

- ☒ Current progress
- ☒ Next steps
- ☒ Next meeting

Current progress

- slow
- two agents, one qtable one rl

Next steps

- qt agent should use hashtable (in python it would be a set)
- maybe use full sized board with convolutional neural network
- more communication between meetings
- working agent preferably by 13.09
- write down some experiments in preparation for the report
- define metrics, run scientific tests

Next meeting

- friday 10:30
- optionally sunday
- wednesday 10:30
